

How to embed a LifeSize® video onto your website

- Videos on the LifeSize website will be found in either
 - the Video Gallery
 - a Related Videos carousel
 - or, a Featured Video spotlight

- If the video that you want to embed is in the **Video Gallery**, under the Gallery & Resources drop-down in the main navigation :

- Navigate to individual video page of video you want to embed. It should look like the picture below, with the title, video player, short description, and then a section on sharing video.

2. At the *end* of the video, the screen should look like this:

3. Click the tab that says "<> embed" -- The screen should then look like this:

4. Click the button in the bottom right that says "Copy Code."

5. Paste the copied code in the html of the web page where you want it to appear.

- *Advanced Options* -- Parts of code you can modify:

Code	Explanation
src='http://ne.edgecastcdn.net/000AB7/Experiential/player.swf'	Player source. This will be different if you have your own player.
height='326' width='580'	Size of video.
allowfullscreen='true'	If don't want to allow full screen view, change to 'false'
autostart=true	If don't want video to start playing automatically, change to 'false'
&skin=http%3A%2F%2Fne.edgecastcdn.net%2F000AB7%2FExperiential%2FPlayerSkin04.swf	Player skin. This will be different if you have your own player.
&controlbar size=46	Size of control bar.
file=http%3A%2F%2Fwpc.0AB7.edgecastcdn.net%2F000AB7%2Flynx%2FPassport_Transform_web.flv	Video file source. If you have your own player, you can COPY from "http" to ".flv" and PASTE after the "file=" in your own player's html code
